Purpose of the Document

To provide a set of definitions *with examples* for the terms that we are using within the context of the State Performance Plan (SPP) and the Annual Performance Report (APR).

Goal: To develop a “common language” for use in our state improvement work.

What will we do today?

- **Develop a “short list” of terms that you would like to see included in a “Common Language” document.**
- **Review the draft document.**
- **Generate lists of additional terms to be included.**
- **Provide a means for further input.**
- **Recruit volunteers.**

We'd like your input...

**Email additional terms,
questions or definitions to:**
