What Comes Next

- Significant Disproportionality resources at <https://ideadata.org/significant-disproportionality>
- Will add recordings from the sessions
- Evaluation survey for Summit

The screenshot shows the 'Significant Disproportionality' section of the IDEA Data Center website. At the top, there is a blue header with the 'SD' logo and the text 'Significant Disproportionality'. Below this, the page title 'Significant Disproportionality Resources' is centered. A paragraph explains that the Equity in IDEA Regulation requires states to determine annually if local education agencies (LEAs) are identified with significant disproportionality, and that the regulation outlines specific requirements for identifying LEAs and activities they must complete. A left sidebar contains a menu with 'Requirements' (selected), 'Calculation', 'Identifying and Addressing Contributing Factors', 'Reporting Data', and 'Quick Links'. The main content area under 'Requirements' includes a sub-header 'Requirements', a paragraph about the Equity in IDEA Regulation, and a section titled 'REFERENCE MATERIALS: Equity Requirements in IDEA' which states that IDEA has three distinct requirements: Disproportionate Representation (SPP/APR Indicators 9 and 10), Significant Discrepancy (SPP/APR Indicators 4A and 4B), and Significant Disproportionality. It also mentions that IDC developed this resource to compare and contrast these requirements. A 'View Resource' link with a right-pointing arrow is at the bottom of this section.
